From Concept to Manufacture

FobPet is a brand of Zhizao at Dongguan China, the professional manufacturer of cardboard cat scratcher.

We have been in this filed for over 10 years, investing a lot of resources to research and develop the scratcher based on the cats behaviors. With an excellent design team, skillful production team and considerate sales team,we are able to provide quality one-stop service for domestic and foreign clients.

Producing quality, eco-friendly and save products is our culture. We have passed ISO 9001:2015 quality management system. And we have our own production executive standard Q/ZZ-06-2017. Besides, our environmental protection responsibility has been certified by the government authorities; Moreover,our products have been tested under the compliance guide of REACH ,RoHS, EN-71 ect. We are also the BSCI Certified Factory and the certified member of FSC.

Creating Your Own Free Design Support

When you want your brand to stand out, custom design is the way to go. You can make your unique in shape, color, closure, or decorative labeling. Customization also ensures that the design suits your product.

01 Identifying Your Idea

For your ideas, we will be working patiently with you to comprehend your exact requirements. Our design team will further investigate your requirements and not only generate ideas that suit your original brief, but will also take into consideration a feasible price as well as manufacturing alternatives and improvements to aid production and filling.

02 Custom Design & Drawing

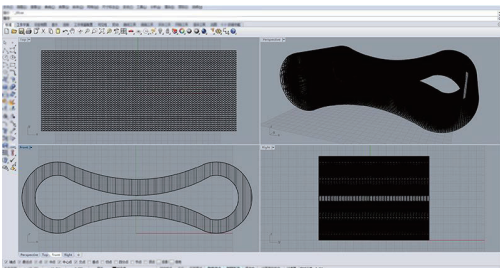

Once the design has been created, the specification drawing is produced to define measurable features of the product, whilst observing the manufacturing limits. At this stage, we need to validate the technical specification prior to production.

03 Processing Sample

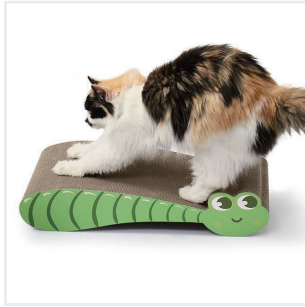

Once the design is confirmed, we proceed to manufacture samples to ensure that we are happy with the production and that it meets your requirements. You will have the opportunity to test the samples down your filling line, label them and check their compatibility with the closure and secondary packing, before giving formal approval to proceed to bulk production.

04 Manufacturing & Packaging

Once all samples have been approved and made, it's time to manufacture your custom cardboard cat furniture. All manufacturing is done in the high quality control. Our machines are built to handle a range of cardboard materials, giving us unmatched control over both the cost and timeline of each project.
